EDUCATION

Kashi Institute of Technology

Bachelor of Technology in Computer Science Engineering

Mirzamurad, Varanasi, India

Expected Jul. 2026

EXPERIENCE

President, Techno Club

Kashi Institute of Technology

Jan. 2024 – Feb. 2025

Mirzamurad, Varanasi, India

- Led 8+ technical workshops and 1 major tech event, boosting student participation by 40%.
- Mentored 200+ students in web development, improving coding contest performance by 25%.
- Introduced Agile workflows, reducing event planning time by 30% while coordinating a 15+ member team.

Top 20 Finalist - Coder Army Hackathon 3

Solo Developer

Mar. 2025 – Mar. 2025

India

- Built a DSA Visualizer with animated race-style algorithm comparisons, ranking 17 out of 500+ teams.
- Completed project in 48 hours, showcasing strong problem-solving and UI animation expertise.
- **Tech Stack:** React, React Router, Framer Motion, Tailwind CSS

PROJECTS

Padhlo.live (AI-Powered Coding Platform) | *In Progress*

- **Tech Stack:** Node.js, Express.js, React, Redux, MongoDB, Redis, Shadcn UI
- Architecting a full-stack coding platform with automated code execution (Judge0 API).
- Implemented JWT authentication and Redis caching, improving API response time by 25%.
- Integrated Google Gemini AI for contextual hints, aiming to reduce learner mistakes by 20%.

Algorithm Visualizer Website | *[Live Demo]*

- **Tech Stack:** React, React Router, Framer Motion, Tailwind CSS
- Built a Single Page Application (SPA) with React Router to deliver smooth navigation and instant page transitions.
- Created interactive algorithm animations to simplify learning and increase learner retention by 15%.
- Designed a modern UI using Framer Motion, boosting average session duration by 20%.

CERTIFICATIONS

Google UX Design Professional Certificate [\[Verify\]](#)

Coursera

Nov. 2024

- Completed 7-course UX series covering research, wireframing, prototyping, and usability testing.
- Applied UX principles to deliver user-centric designs and smooth developer handoff.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, Java, C, TypeScript

Frontend: React, Redux, HTML5, CSS3, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, MongoDB, Mongoose, Redis, REST APIs

DevOps & Cloud: Linux (Ubuntu), Shell Scripting (Bash), AWS EC2 for remote deployments and server management, WSL, CI/CD workflows

AI/ML: Generative AI, LLMs, Google Gemini, AI Agents

Dev Tools: Git, GitHub, Postman, VS Code, MongoDB Compass, Judge0

Concepts: DSA, Authentication (JWT, bcrypt), Caching, Automation, Web Scraping (Puppeteer), Agile Methodologies

Design: Figma, User Research, Wireframing, Prototyping
